Control measure - Substance identification: Corrosive materials

TRAINING SPECIFICATION

Knowledge and understanding

Control measure element	Learning outcome
Gather information and recognise symbols, labels and other marking to identify corrosive materials	Understand: <ul style="list-style-type: none">• Classification and labelling of corrosive materials• Signage identifying the presence of corrosive materials• Procedures for Litmus and pH scale testing of corrosive materials• Considerations when observing/monitoring for signs of corrosion Refer to – Substance identification – Hazardous materials training specification

Practical application

Control measure element

Learning outcome

Gather information and recognise symbols, labels and other marking to identify corrosive materials

Demonstrate the ability to:

- Use signs, labels and markings to identify the presence of corrosive materials
 - Identify and interpret corrosive material incident information and where appropriate use detection equipment
 - Use specialist advice to identify corrosive materials information
 - Assess the risk of fire from corrosive materials
- Refer to – Substance identification – Hazardous materials training specification
