### TRAINING SPECIFICATION

#### Knowledge and understanding

---

<b>Control measure element</b>	<b>Learning outcome</b>
--------------------------------	-------------------------

Dilute corrosive materials	
----------------------------	--

Understand:

- The process and potential hazards when diluting corrosive materials, as a last resort
- The criteria for consideration prior to dilution
- The general rule for dilution
- The potential environmental impact of diluting corrosive materials
- The limitations of diluting corrosive materials as a tactic

Refer to – [Dilution – Environmental training specification](#)

#### Practical application

---

<b>Control measure element</b>	<b>Learning outcome</b>
--------------------------------	-------------------------

Dilute corrosive materials	
----------------------------	--

Demonstrate the ability to:

- Confirm the suitability of corrosive materials for dilution
- Apply safe and effective methods of dilution

Refer to – [Dilution – Environmental training specification](#)
