Hazard - Inaccurate situational awareness: Underground structures

Knowledge and understanding

Hazard	Learning outcome
Inaccurate situational awareness: Underground structures	Understand all associated hazard knowledge

Control measure - Site-Specific Risk Information (SSRI)

TRAINING SPECIFICATION

Knowledge and understanding

Control measure element	Learning outcome
Site-Specific Risk Information (SSRI)	Understand: <ul style="list-style-type: none">• The arrangements for obtaining SSRI• The information contained within SSRI• The process for sharing updated information regarding SSRI

Practical application

Control measure element	Learning outcome
Access and use Site Specific Risk Information to inform operational practice	Demonstrate the ability to: <ul style="list-style-type: none"> • Access SSRI • Use SSRI information to identify hazards • Produce accurate SSRI • Use service policy to process and amend inaccurate SSRI • Identify sites that require completion of SSRI • Perform familiarisation visits involving SSRI • Perform exercises using SSRI • Use salvage plans • Use disaster plans • Use SSRI to resolve operational incidents • Identify inaccurate information following an inspection, visit or incident and update SSRI appropriately

Control measure - Emergency response plans

TRAINING SPECIFICATION

Knowledge and understanding

Control measure element	Learning outcome
Emergency response plans	Understand: <ul style="list-style-type: none"> • The relevant legislation on the production of emergency response plans • The principles of emergency response and recovery

Practical application

Control measure element	Learning outcome
Access and use emergency response plans to inform operational practice	Demonstrate the ability to: <ul style="list-style-type: none"> • Access emergency response plans • Identify roles and responsibilities of Fire Service within emergency response plans • Co-operate and share information with other responsible agencies in line with service policy and legal obligations

Control measure - Liaise with responsible person: Underground structures

TRAINING SPECIFICATION

Knowledge and understanding

Control measure element	Learning outcome
Liaise with the responsible person: underground structures	Understand: <ul style="list-style-type: none"> • How a responsible or competent person can assist emergency responders at underground structure incidents Refer to: Failure to receive accurate, timely and relevant information - Operations training specification

Practical application

Control measure element	Learning outcome
Liaise with the responsible person: Underground structures	Demonstrate the ability to: <ul style="list-style-type: none"> • Identify and liaise with a responsible or competent person to identify relevant information Refer to: Failure to receive accurate, timely and relevant information - Operations training specification

Control measure - Control room

TRAINING SPECIFICATION

Knowledge and understanding

Control measure element	Learning outcome
Control room	Understand: <ul style="list-style-type: none">• The facilities afforded by infrastructure control rooms to assist managing an incident

Practical application

Control measure element	Learning outcome
Control room	Demonstrate the ability to: <ul style="list-style-type: none">• Identify the infrastructure control room and gather relevant information
