## Hazard - Confined space working environment

### Knowledge and understanding

Hazard	Learning outcome
Confined space working environment	Understand all associated hazard knowledge  See also <a href="#">The Confined Spaces Regulations</a> and the <a href="#">Confined Spaces Regulations (Northern Ireland)</a>

## Control measure - Safe systems of work: Confined spaces

### TRAINING SPECIFICATION

### Knowledge and understanding

Control measure element	Learning outcome
Safe working: Confined spaces	Understand: <ul style="list-style-type: none"><li>• The need for high levels of situational awareness when committing personnel to confined spaces</li><li>• The appropriate control measures to implement prior to committing personnel into a confined space</li></ul> Refer to: <a href="#">Hazard – Flammable or explosive atmospheres – Control measure – Avoid entry</a> Refer to: <a href="#">Incident command training specification</a>

### Practical application

Control measure element	Learning outcome
Safe working: Confined spaces	Demonstrate the ability to: <ul style="list-style-type: none"> <li>• Gather relevant information from appropriate sources at incidents involving confined spaces</li> <li>• Assess risks associated with confined space working</li> <li>• Implement and use appropriate control measures prior to committing personnel to a confined space</li> <li>• Identify appropriate access and egress routes, including alternative routes where available</li> </ul>

## Control measure - Consider using tag lines

### TRAINING SPECIFICATION

#### Knowledge and understanding

Control measure element	Learning outcome
Use tag lines	Understand: <ul style="list-style-type: none"> <li>• Procedures and systems for the use of tag lines in the confined space environment</li> <li>• The benefits and limitations of tag lines</li> </ul>

#### Practical application

Control measure element	Learning outcome
Use tag lines	Demonstrate the ability to: <ul style="list-style-type: none"> <li>• Apply procedures for the use of tag lines in the confined space environment to; Monitor, trace, locate and retrieve personnel</li> </ul>

# Control measure - Have an effective recovery system

---

## TRAINING SPECIFICATION

### Knowledge and understanding

Control measure element	Learning outcome
Have an effective recovery system	Understand: <ul style="list-style-type: none"><li>• The relevant legislative requirements associated with recovery systems whilst operating in the confined space environment</li><li>• The considerations when establishing a suitable and sufficient recovery system for personnel operating in the confined space environment</li><li>• The procedures available to establish an effective recovery system</li></ul>

### Practical application

Control measure element	Learning outcome
Have an effective recovery system	Demonstrate the ability to: <ul style="list-style-type: none"><li>• Implement, monitor and maintain effective recovery systems in the confined space environment</li><li>• Assess established recovery systems to determine their suitability for use</li></ul>
